An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Replace the Abstract page with the attached copy having the extraneous material struck out. At page 1, line 3, of the instant specification, insert – This is a 371 of PCT/KR00/00984, filed 30 August 2000.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the compositions and devices made therewith wherein x, y, a, b, c and d are nonzero. There is a material difference in scope in the proportions of multiple ingredients between this application and the claims of 10/018426. Obviousness type double patenting is essentially a question of obviousness. *In re Vogel*, 164 USPQ 619. There is no teaching in the referenced application or prior art that would suggest to one of ordinary skill in the art that the particular properties, as set forth in the specification, would be observed with the ranges recited. See, *In re Arness*, 37 USPQ 217 and; *In re Becket*, 33 USPQ 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
